

## Cabinet Finisher

Established in 1989, Terlin has become a leader and innovator in full-service construction for retail, commercial, and institutional clients. Distinguished by their end-to-end approach and unparalleled reputation for quality and reliability, Terlin's state-of-the-art facility houses their custom Millwork shop which provides an exclusive focus on the specialized needs of their clients. From design through construction and service, Terlin handles every aspect of interior construction and delivers outstanding and consistent results.

**The Terlin Team** is a talented and driven group of experts, trades-people, designers, and project managers. In addition to their skilled partners and sub-trades, Terlin's complete team is made up of close to 200 dedicated individuals – each committed to making customer service and satisfaction their highest priorities. **And they are always looking for great people to join their team!**

### The Opportunity

Terlin operates a state-of-the-art, European-inspired millwork shop within our Ottawa facility and is currently seeking a fulltime, experienced, and dynamic **Cabinet Finisher** to join their growing team.

The millwork shop produces custom building construction quality interior and exterior finishes, cabinetry, and other decorative components using a variety of modern and traditional materials including wood, synthetics, plastics, and composites to create items such as:

- Custom commercial cabinetry including office interiors and medical / dental cabinetry
- Custom office interiors, hotel, reception, and boardroom furnishings
- Architectural millwork
- Entrance and window features
- Built-in elements
- Wall features

The environment is fast-paced and growth-oriented – ideally suited for individuals who like to take charge and are driven to build on current successes.

### Responsibilities

Working from plans and architectural drawings, the Finisher is responsible for painting, staining, and finishing high end cabinets and other pieces.

Specifically, the Finisher will be responsible for:

- Reviewing plans and ensuring a thorough understanding of the project's scope;
- Planning and executing the work to fit the timelines required by the customer;
- Staining and lacquering of cabinets and solid wood;
- Painting cabinets with solvent based paint and water-based paint;
- Maintaining a clean and stocked spray booth;
- Should have a good understanding of gravity guns and pump guns;
- Ensure safety standards are met and always reinforced in all areas of the shop and notify supervisor of problems or concerns;
- Work within the larger team to create a safe, clean, and efficient workplace;
- Millwork shop hours are Monday to Friday, 7:00am to 3:30pm. Hours will vary depending on production schedules (Overtime will be required to meet project completion deadlines).
- Power tools will be supplied by the company. Hand tools are to be provided by the individual.

### **Qualifications**

- A minimum of 2 years of cabinet finishing experience.

### **What Terlin Has to Offer**

Terlin offers employees the opportunity to work on innovative projects alongside dynamic, dedicated, and talented teams who possess a strong drive for success.

Their **comprehensive benefits package** is designed to meet the demands of each individual's life at work as well as at home.

Employees are eligible for coverage under Terlin's benefit plans and are encouraged to participate in any, or all, of their benefit programs. The benefit programs are also complemented with **RRSP** matching and **profit sharing**.

Terlin is an equal-opportunity employer and values diversity and inclusiveness in their company.

### **Do you have the drive, the experience, and the commitment to excellence to be part of the Terlin Team?**

If you think you have what it takes and would like to join an organization that offers proven corporate leadership, opportunities for career advancement, great team spirit, and a collaborative environment, then let Terlin provide you with an excellent place to work, grow, and excel!
